Remarks

- The type licence can only be applied for by the future licence holder, or by someone acting on his behalf. It is customary to authorise the testing laboratory since it tends to speed up the application process. This is not mandatory; you may authorise someone else or do it yourself.
- The list of five testing laboratories is not exclusive and others may be used; contact the Kansspelautoriteit beforehand if you wish to do so.
- Gaming machines in the Netherlands need an official registration sticker (*merkteken*) similar to the number plate of a car. It must be attached by the licence holder or someone acting on his behalf. It is customary to authorise Holland Casino for casino machines. It is never mandatory, and the licence holder may authorize someone at a later date.
- Personal information will be processed in the administration of the Kansspelautoriteit and will not be used for other purposes than the implementation of the gambling legislation (*Wet op de kansspelen*) and other purposes as stipulated by law.
- It is not mandatory to name a contact officer, but it is strongly recommended since it tends to speed up the application process.
- This application form must be submitted as a signed and physical copy (not electronic) to the Kansspelautoriteit, Postbus 298, 2501 CG Den Haag. Information: 070-302.1300 or info@kansspelautoriteit.nl.
